# JOFA RESINS

## MISSION STATEMENT

"Our Mission is to supply only the highest performing quality products at the lowest prices in the UK, giving our customers the best value for money in paints and coatings, delivering a legendary customer service and aftercare.

We ensure no shortcuts are taken and maintain the highest standards in both application work and product manufacture. We take heart in being a company you can rely on."

**John Patino** Director

## WHAT TYPE OF PRODUCTS & SERVICES DO WE SUPPLY?

- Metallic Epoxy Flooring Systems
- High Performance Industrial Epoxy Systems
- Casting Epoxy - Art Resin - Diamond Cast HV
- AtriaFloor Products
- Titanium Rock Resin
- Thermo Decorative Paints
- Interior & Exterior Energy Saving Paints
- Fast Track Self Leveling Screed Systems
- Pigments: Metallic & Liquid Pigments in accurate RAL and BSC codes
- Industrial, Commercial & Residential Coatings
- Multiple Resin Systems including:  
Polyurethane, Polyurea, Polyaspartic,  
Waterproofing, PU Cement Mortars & More
- PU Top Coat Sealers Satin/Matt/Gloss
- Pro Coating Academy Training Courses
- Premium Plastering Trowels
- Tools, Equipment & Machinery
- Cleaning & Maintenance Products
- PVC Flakes & Quartz Stones
- Metallic IMica Flakes

## TRY BEFORE YOU BUY!

### 3m<sup>2</sup> EPOXY SYSTEM SAMPLE KIT

Unit	1
Price	£99

Sample Includes the following:

- \_ Base Coat = 1.5kg
- \_ Epoxy UV Stable 100 = 3kg
- \_ Top Coat = 1kg
- \_ Selection of Metallic Powder Pigments 10 x 10g bags
- \_ 4" 10pk - Design Coat Short Pile Rollers 6mm

**Epoxy offers much versatility.**

That is why **SINDEC** has developed the perfect Epoxy system to apply most amazing floors. Be creative and have no limits to amaze your clients with floors that deliver high performance and bring the WOW factor they are looking for.

# METALLIC EPOXY COATING SYSTEM

Ideal for White Marble Effect & Metallic Epoxy Floors

## EPOXY UV STABLE 100

Kits Available	1.5 kg	3 kg	6 kg	15 kg
Price	£31.25	£51.05	£91.66	£213.55

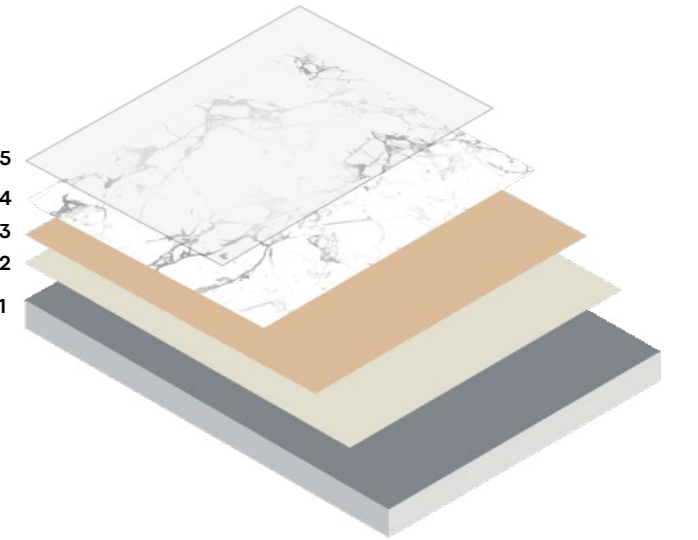

A 2 Component Crystal Clear Epoxy Resin with high performing UV Stability and Scratch Resistance. This Epoxy particularly ensures that light coloured surface will retain their colour and protect them from yellowing when exposed to UV light. Ideal for almost any application! Can be used in Penny floors and 3D floors, to cast Jewellery, for table production and application on floors. Ideal for PENNYFLOORS

## EPOXY UV STABLE SYSTEM

Tried and Tested 5 Step Metallic Epoxy Coating System

- 1 - SUBSTRATE / SUBFLOOR**  
Min. 25N/mm2 - Dust Free - Must be Level - Crack Free  
Moisture below 4%, in case moisture is higher than 4% a DPM must be used.
- 2 - PRIMER COAT**  
Primer Epoxy 100 - 300g per m2
- 3 - BASE COAT**  
Primer Epoxy 100 - 500g per m2
- 4 - DESIGN COAT**  
Epoxy UV Stable 100 - 1kg per m2
- 5 - TOP COAT SEALER**  
Water Based PU CLEAR/SATIN/GLOSS - 200g per m2

\*These are recommended amounts based on UK standards, we recommend using no less than amount stated per m2, it is the applicator's responsibility to apply the system beforehand on site to verify the desired performance (system will perform perfectly in the conditions stated in the TDS).

# SINDEC CASTING EPOXY 50MM

Crystal clear epoxy with UV stability for deep casting

## SINDEC CASTING EPOXY 50MM

Kits Available	750g	1.5 kg	3 kg	7.5 kg	15 kg	30 kg
Price	£18.74	£31.24	£51.05	£112.49	£213.53	£419.78

A 2 Component Crystal Clear Epoxy uniquely formulated for deep casting in one pour (50mm per pour on 12 litres). Our casting epoxy boasts from industry leading UV Stability to protect against Epoxy yellowing and discolouring. Ideal for Casting and creating exquisite River Tables, Furniture, Lamps and Creative DIY. This Epoxy has in-built bubble removal agents and allows for precise article placement to ensure a Crystal Clear finish with 100% transparency and solidity.

**CASTING**  
EPOXY RESIN

# SINDEC ART RESIN

Ideal for Art Projects and Jewellery Casting

## SINDEC ART RESIN - EPOXY CRYSTAL CLEAR

Kits Available	750g	1.5 kg	3 kg	7.5 kg	15 kg
Price	£18.75	£31.25	£51.05	£112.50	£213.55

Elevate your Artworks with SINDEC ART RESIN, a 2 Component Epoxy Crystal Clear Art Resin, 2:1 Mixing Ratio, completely VOC FREE and NON-TOXIC, Odourless does not emit fumes not only environment friendly but safe to work with. UV Resistant to protect against Yellowing and Low Viscosity as required in art resin products with a High Gloss finish, Excellent working time. This epoxy is 100% Solid and brings complete crystal clear transparency with good chemical and mechanical resistance. 24hr curing time - Fully cured in 5-7 day

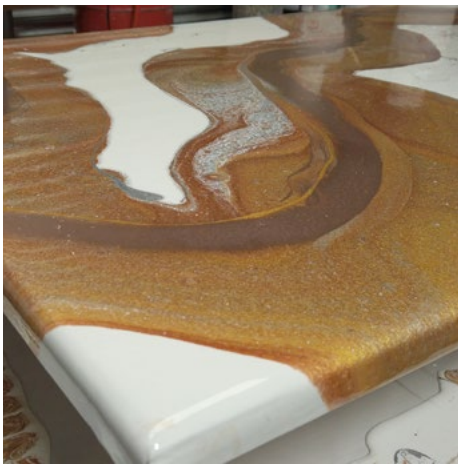

## ART RESIN

EPOXY CRYSTAL CLEAR

# SINDEC DIAMOND CAST EPOXY HV

High Viscosity Resin ideal for Countertop Design

## SINDEC DIAMOND CAST EPOXY HV

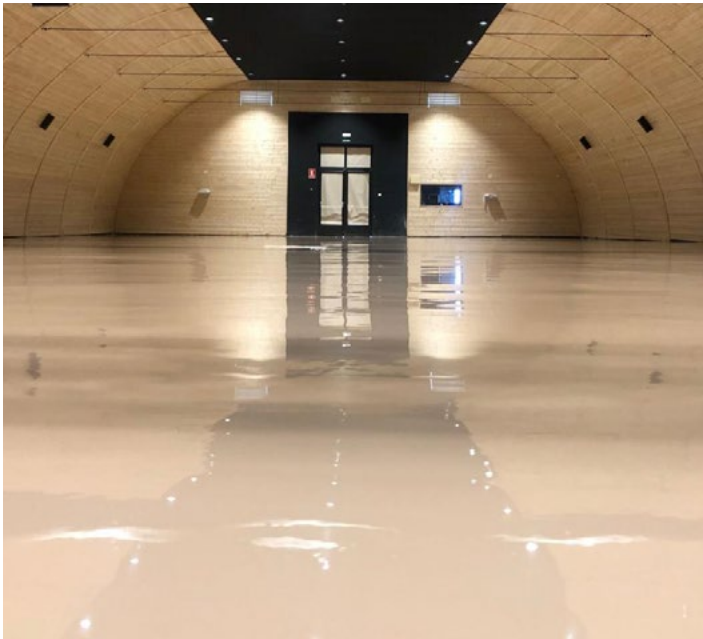

Kits Available	1.5 kg	3 kg	7.5 kg	15 kg
Price	£26.10	£41.66	£88.53	£166.66

Diamond cast high viscosity resin is a 2 component, virtually solvent free epoxy resin system. Perfect for counter top design, great for art projects. The high viscosity provides sharp edges, retains the design. With the high level of viscosity it is useful on edgework with less chance of slumping. The resin is clear and has a diamond gloss, fast drying finish.

**Countertop Design and Art Projects - Retains your design - Clear Epoxy - 100% Solid - Fast Drying Diamond Gloss Finish.**

**DIAMOND  
CAST HV**  
HIGH VISCOSITY EPOXY

**High performing in industrial settings.**  
This Epoxy delivers the aesthetics and performance required in any industrial place, it must withstand heavy traffic and weight on a daily basis and be easily maintained & cleansed. Create diverse lines and signs to meet H&S standards.

# HIGH BUILD EPOXY

## Industrial Multi-Layer Epoxy Coating

### HIGH BUILD EPOXY

Kits Available	25 kg
Price	Depends on RAL used

#### INDUSTRIAL TRAFFIC COLOURS

Any other RAL or BSC Colour can be supplied upon request.

  
RAL 7042

  
RAL 7043

£ 177.50

  
RAL 6024

  
RAL 5017

  
RAL 2009

  
RAL 1023

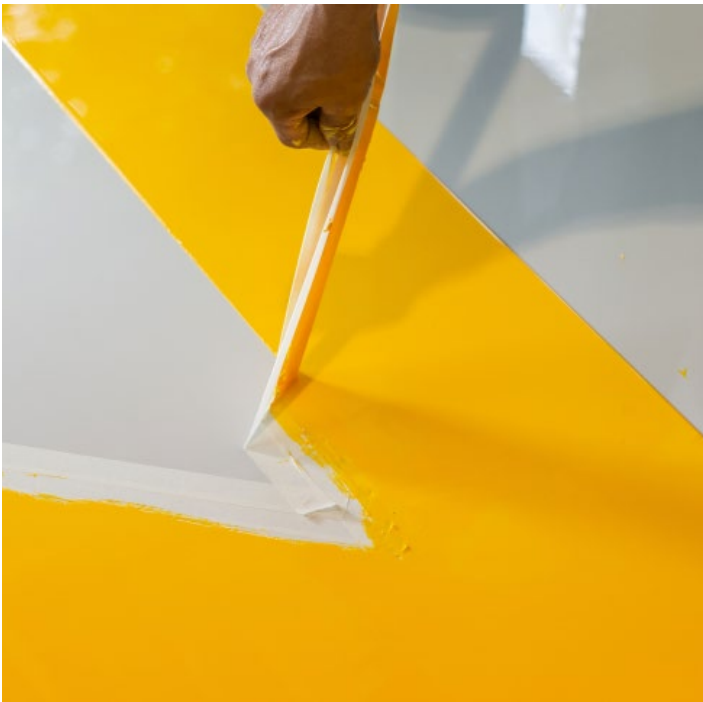

£186.70

  
RAL 3020

  
RAL 4006

£198.20

100% Solid, Pre-pigmented high performance epoxy coating for flooring application. A 2 Component Epoxy Resin ideal for Industrial and Commercial flooring that is subject to heavy loads. Strong multilayer protective coating for heavily used concrete floors.

Line markings for industrial spaces

\*It is the applicator's responsibility to apply the system beforehand on site to verify the desired performance (system will perform perfectly in the conditions stated in the TDS).

*Polyurethanes are Aliphatic Resins and offer flexibility in places where high impact is common,*

*Hygienic floors ideal for surgical rooms and medical practices.*

# POLYURETHANE RESINS

Polyurethanes are more flexible resins with thicker applications, resulting in durable long lasting floors with high impact absorption. Comfort flooring solutions ready.

## POLYURETHANE FLOOR

Kits Available	5 kg	25 kg
Price	£38.80	£168.00

A 2 Component Self Smoothing 100% Solid Polyurethane Resin with **SLIGHT** flexibility. Solvent-Free with Good Resistance to Abrasion and Scratching. Requires PolyECO Topcoat Finish. Pre-Pigmented in RAL 7001 (Light Grey) (Other colours available upon request).

## POLYURETHANE FLEX

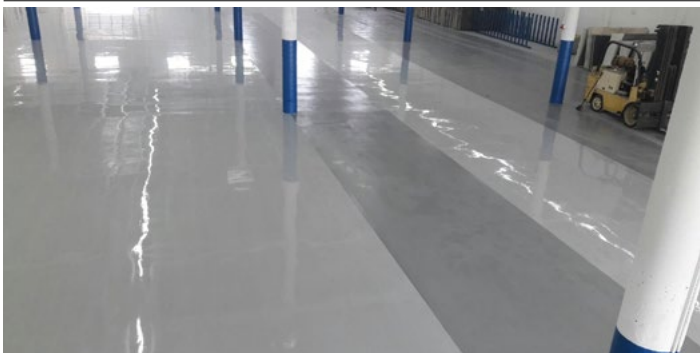

Kits Available	5 kg	25 kg
Price	£38.80	£168.00

A 2 Component Self-Smoothing 100% Solid Polyurethane Resin **HIGHLY** flexible. Solvent-Free with Good Resistance to abrasion and Scratching. Requires PolyECO Topcoat Finish. Comfort Flooring Solutions ready - Gyms, Play-room, Infant Room, etc. Pre-Pigmented in RAL 7001 (Light Grey)(Other colours available upon request).

## POLYURETHANE FLEX A

Kits Available	18 kg
Price	£296.79

A 2 Component Self Smoothing 100% Solid **ALIPHATIC** Polyurethane Resin **HIGHLY** flexible. Solvent-Free with Good Resistance to abrasion and Scratching. RequiresPolyECO Topcoat Finish. Comfort Flooring Solutions ready - Gyms, Play-room, Infant Room, etc. Pre-Pigmented in RAL 7001 (Light Grey)(Other colours available upon request).

*Anti Slip aggregates like glass., PV flakes, quartz stones and sand are ideal for polyaspartic floors*

# POLYASPARTIC RESINS

Polyaspartic resins suit indoor/outdoor application, fast curing even at low temperatures. Combine well with flakes and quartz for Slip resistant Floors. Non-Yellowing Resin. The biggest advantage of polyaspartics is the lack of odour they emit.

## POLYNATE 100

Kits Available	<b>4.6 kg</b>	<b>15 kg</b>
Price	<b>£165.34</b>	<b>£402.54</b>

Polyaspartic 100 is a Solvent- Free 100% Solid Aliphatic Polyaspartic Resin. High Coating Thickness can be achieved with a single Coat. Used as a multilayer system in combination with Quartz Sand and Flakes. Fast Curing Even at Low Temperatures. Excellent gloss retention with an aliphatic polysocyanate base DOES NOT YELLOW as epoxy. Available Colourless and on RAL colours upon request. Good weathering resistance, excellent for indoor and outdoor use.

## POLYNATE 100 LOW VISCOSITY

Kits Available	<b>5 kg</b>	<b>15 kg</b>
Price	<b>£142.31</b>	<b>£318.71</b>

Polyaspartic 100 Low Viscosity is a 100% Solid Low Viscosity 2 Component Polyaspartic Resin. Unlike most Polyureas, it has a slow enough curing time to allow for manual application. Fast Curing Even at Low Temperatures. Excellent gloss retention with an aliphatic polysocyanate base DOES NOT YELLOW as epoxy. Available Colourless and on RAL colours upon request. Good weathering resistance, excellent for indoor and outdoor use.

## POLYNATE 100 FLEX

Kits Available	<b>4 kg</b>	<b>11 kg</b>
Price	<b>£145.88</b>	<b>£320.99</b>

Polyaspartic 100 FLEX is a Solvent- Free 100% Solid Aliphatic Polyaspartic Resin. Highly flexible at max 123% elongation compared to other Polyaspartics Resins. Used as a multilayer system in combination with Quartz Sand and Flakes. Fast Curing Even at Low Temperatures. Excellent gloss retention with an aliphatic polysocyanate base DOES NOT YELLOW as epoxy. Available Colourless and on RAL colours upon request. Good weathering resistance, excellent for indoor and outdoor use.

## POLYNATE M FLEX

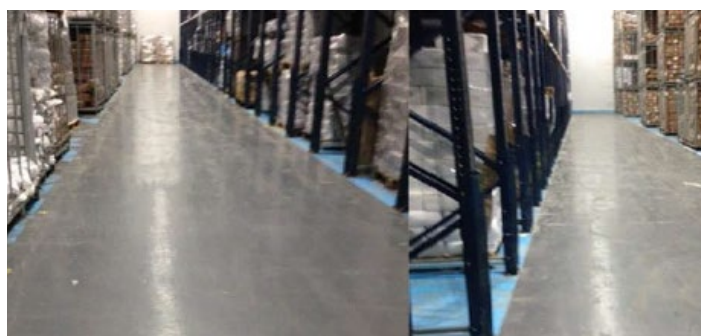

Kits Available	<b>4 kg</b>	<b>15 kg</b>
Price	<b>£108.71</b>	<b>£326.13</b>

Polyaspartic M FLEX is an Aliphatic Polyaspartic Resin. Highly flexible at max 150% elongation compared to other Polyaspartics Resins. Can be applied by roller or airless equipment. Used as a multipayer system in combination with Quartz Sand and Flakes. Fast Curing Even at Low Temperatures. Excellent gloss retention with an aliphatic polysocyanate base DOES NOT YELLOW as epoxy. Available Colourless and on RAL colours upon request. Good weathering resistance, excellent for indoor and outdoor use.

## POLYNATE M

Kits Available	<b>4.5 kg</b>	<b>13.3 kg</b>
Price	<b>£121.66</b>	<b>£287.53</b>

Polyaspartic M is an Aliphatic Polyaspartic Resin. High Coating Thickness can be achieved with a single Coat. Can be applied by roller or airless equipment. Used as a multilayer system in combination with Quartz Sand and Flakes. Fast Curing Even at Low Temperatures. Excellent gloss retention with an aliphatic polysocyanate base DOES NOT YELLOW as epoxy. Available Colourless and on RAL colours upon request. Good weathering resistance, excellent for indoor and outdoor use.

Polyureas are Industrial-Grade, Hot-Spray application resins.

Super Fast-track Curing with extremely high elongation.

Ideal for Factory and warehouse resurfacing.

Can resume factory work/production same day.

# POLYUREA RESINS

## POLYUREA SELF SMOOTHING SPRAY

Kits Available	50 kg	400 kg
----------------	-------	--------

Polyurea Self Smoothing Spray is a Two Component Modified polyurea resin applied by mechanical projection. Fast Curing. Easily Manipulated for Self Smoothing compared to other Hot Spray applied resins. Seamless Results, Elastic coating with a smooth finish. Ideal for Car Parks and Industrial Floors. Available in Grey - Beige - Tile Red - Blue, for other colours please consult with us.

## POLYUREA ONE SPRAY

Kits Available	49.3 kg	378 kg
----------------	---------	--------

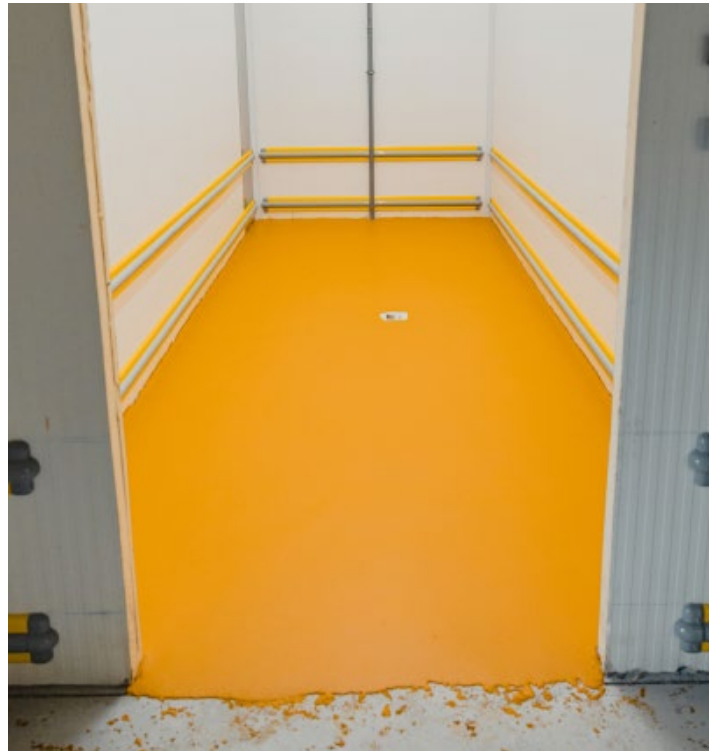

Polyurea ONE Spray is a Hard Aliphatic pure polyurea to be applied in ONE LAYER ONLY by Hot Spray equipment. Excellent gloss and colour retention. Solvent-Free and highly weather and abrasion resistant. Ideal for Industrial, Marine and Architectural Applications. Fast curing even at low ambient temperatures with good adhesion and high abrasion resistance. Significant time and cost saver for customers with short curing time. Allows for Sand/Aggregate Broadcasting between Layers. Available in Grey - Beige - Tile Red - Blue (For other colours please consult with us)

## POLYUREA KEVLAR SPRAY

Kits Available	40 kg	400 kg
----------------	-------	--------

Polyurea KEVLAR Spray is a Fast curing two component polyurea resin for the application of continuous substrate membranes, with fire resistant properties. Ideal for: Indoor & Outdoor Car Parks. Allows for extremely fast and efficient applications in new or existing Car Parks. Excellent mechanical properties: Puncture Resistant, Crack Bridge, Tensile, Elongation, etc. Allows for Sand/Aggregate Broadcasting between Layers. Available in Grey - Beige - Tile Red - Blue (For other colours please consult with us)

# POLYCRETE PU CEMENT MORTAR

POLYCRETE is a Polyurethane Cement Mortar Resin, these have high temperature and chemical resistance; ideal for the Pharmaceutical, Chemical Industry, Food processing Facilities & Kitchens of all sizes and traffic. Perfect for all areas of heavy use. Compatible with pressure jet floor cleaning.

## POLYCRETE SELF LEVEL

Kits Available	19.5 kg
----------------	---------

PolyCRETE Self is a Cementitious polyurethane system for applications where thermal shock resistance is required. Three Liquid Components (A+B+Pigmentations) and one mineral filler. Supplied Clear and Available in different Colours. Ideal for: Food Industry, Food Processing facilities, Kitchens, Pharmaceutical and Chemical Industry, Vehicle maintenance, Electropainting and all Areas of Heavy Use/Traffic. Available in Green - Red - Grey - Yello (Other colours available upon request).

## POLYCRETE TOP COAT

Kits Available	8 kg
----------------	------

PolyCRETE Top Coat is a Polyurethane-Cement top coat for sealing slip resistant systems for floor where high resistance to aggressive chemicals, strong impacts and high temperatures are required. Application: Pavings used within the Chemical & food Industries, Around Dairy Production Pulp Mills, Meat Slaughterhouses, etc.

## POLYCRETE MORTAR

Kits Available	23.8 kg
----------------	---------

PolyCRETE Mortar is a Solvent-Free Screed Mortar. Can be applied by trowel at a thickness of 12mm to 60mm. Application: The screeds made with this product can be used for Heavy Duty Floors and Slope Repair. Available in Green - Red - Grey - Yellow (Other colours available upon request).

# PRIMERS & SURFACE PREP

Primers are the basis of every resin job; our Primers seal and prepare all surfaces as required to a professional standard. Start the foundation of your surface with confidence, browse our products.

## PRIMER EPOXY 100

Kits Available	1.5 kg	3 kg	6 kg	15 kg
Price	£26.80	£42.85	£72.99	£167.00

Primer Epoxy 100 is a 2 Component high performing universal Epoxy Primer. Low viscosity and high performance to penetrate deep into the concrete for optimal binding. Safe and easy to use solvent free formulation. Universal Primer for polyurea and most flooring applications. For anchoring and sealing concrete surfaces with sand. For elaborating dry mortar in combination with sand. As a pre-leveling layer (with sand). As a binder between old and new mortar.

## AQUA SHIELD PRIMER

Kits Available	5 kg	18 kg
Price	£63.54	£190.50

Aqua Shield Primer is a Water Based multi purpose epoxy primer for applying Polyurethane or Epoxy Waterproofing or Flooring on Substrates with **more than 4% humidity levels**. Application: All types of waterproofing works which involve the use of Polyurethanes. Restoration of Balconies, Deckings. Ideal for all flooring exposed to humidity.

## EPOXY GEL CRACK FILLER

Kits Available	3 kg
Price	£63.28

Epoxy Gel Crack Filler is a 2 Component Solvent-Free epoxy crack filler. Designed to seal porous or irregular vertical and horizontal surfaces. Excellent chemical resistance and sealing properties with fast curing times. Allows to quickly prepare and seal the substrates in very irregular surfaces.

# PRIMERS & SURFACE PREP

## GREEN CONCRETE PRIMER DPM

Kits Available	15 kg
Price	£211.89

Green Concrete Primer is a 2 component solvent-free epoxy resin with fast curing. Can be applied in a single thick layer (horizontal surface) with excellent binding on porous surfaces with high humidity such as concrete or mortar. Can be applied by trowel or roller over wet substrates (without negative pressure) - For water-proofing it can be applied by hot spray or cold applied.

## POLYUREA FLEX FAST PRIMER

Kits Available	4.4 kg	22 kg
Price	£62.65	£286.65

Polyurea FLEX Fast Primer is a Fast Curing, Cold Applied Polyurea Primer Solvent Based. Application: As Adhesion Layer. Sealant and Strengthener for hard porous & dry substrates. Sealant of porous substrates (cement, concrete) before application of polyurethane or polyurea waterproofing membranes.

# TOP COAT SEALERS

Top Coat Sealers give protection to our resin floors against abrasion. Hygienic anti-bacterial and anti-mould sealers. Ensure your surface is well protected.

## TOP POLY-ECO MATT

Kits Available	1 kg	4 kg	15 kg
Price	<b>£26.55</b>	<b>£96.57</b>	<b>£325.85</b>

Top Eco Matt is a waterborne, high performance and aliphatic polyurethane resin used as a top coat with a MATT finish. It cures by giving hard and flexible floor coatings also abrasion resistance. It provides a surface protection for heavily used floorings. This material does not discolour upon sunlight exposure, making it suitable for outdoor applications. Being almost solventless, it can be used in public areas with no need to close them. Colourless and pigmented versions are available.

## TOP POLY-ECO SATIN

Kits Available	1 kg	4 kg	15 kg
Price	<b>£26.55</b>	<b>£96.57</b>	<b>£325.85</b>

Top Eco Satin is a waterborne, high performance and aliphatic polyurethane resin used as a top coat with a Satin finish. It cures by giving hard and flexible floor coatings also abrasion resistance. It provides a surface protection for heavily used floorings. This material does not discolour upon sunlight exposure, making it suitable for outdoor applications. Being almost solventless, it can be used in public areas with no need to close them. Colourless and pigmented versions are available.

## TOP POLY-ECO GLOSS

Kits Available	1 kg	4 kg	15 kg
Price	<b>£26.55</b>	<b>£96.57</b>	<b>£325.85</b>

Top Eco Gloss is a waterborne, high performance and aliphatic polyurethane resin used as a top coat with a Gloss finish. It cures by giving hard and flexible floor coatings also abrasion resistance. It provides a surface protection for heavily used floorings. This material does not discolour upon sunlight exposure, making it suitable for outdoor applications. Being almost solventless, it can be used in public areas with no need to close them. Colourless and pigmented versions are available.

## PRIMER PU ACTIVATOR

Kits Available	1 kg
Price	<b>£14.11</b>

Primer Activator provides better adhesion on metal or difficult / non-porous surfaces. Promotes the binding of polyurethane coatings and membranes. Can be applied by roller, brush or spray (optimal application when brushed). to be used on PU Products only

# ADDITIVES

Fine tune you resin coating by adding the following products.

## EPOXY CLEANER

Kits Available	<b>5 lt</b>
Price	<b>£36.20</b>

Efficient Epoxy cleaner, breaks down resins to maintain tools in top working condition and remove epoxy residue from surfaces.

## ISOPROPYL ALCOHOL

Kits Available	<b>5 lt</b>	<b>25 lt</b>
Price	<b>£20.25</b>	<b>£97.50</b>

Isopropyl Alcohol IPA is a highly effective, general use cleaning solvent that is used to clean a variety of substrates and remove a variety of soils. This 99% pure IPA is available in a variety of sizes for all types of use.

## XYLENE

Kits Available	<b>5 lt</b>	<b>25 lt</b>
Price	<b>£16.00</b>	<b>£73.50</b>

Xylene is 100% compatible with SINDEC products. Suitable with Epoxy Resins for dilution (Primer Coat).

## ACETONE

Kits Available	<b>5 lt</b>	<b>25 lt</b>
Price	<b>£24.80</b>	<b>£119.50</b>

Acetone is the standard of the industry for cleaning tools and brushes while working epoxy resins. It is also the recommended solvent for removing greases and waxes from surfaces which are to be bonded, repaired or primed. Acetone will not remove resin from tools, brushes, etc. After the resin has set, It is not recommended for thinning resins or gel coats as this can lead to added pinholes and premature yellowing. Although acetone may be used as a thinner for resins we would recommend the use of xylene for this purpose. Acetone is a highly flammable liquid and must be handle with the same care given to other flammable liquids.

## EPOXY ACCELERATOR

Kits Available	<b>1 kg</b>
Price	<b>£24.99</b>

Reduced the drying time for epoxy coatings.  
Please note: Working times will be reduced upon use

## TA THICKENING AGENT

Kits Available	<b>1 kg</b>
Price	<b>£48.90</b>

TA Thickening Agent is an additive which thickens viscosity on most resins with a use of 1-3% of the total resin quantity used.

## FINE ANTI SLIP ADDITIVE

Kits Available	<b>500 g</b>	<b>1 kg</b>
Price	<b>£7.32</b>	<b>£11.99</b>

FINE Anti-Slip Additive is an additive for top or finishing products for a slip resistant finish. Suitable for flooring and waterproofing application.

# PIGMENTS

Natural Mica and Synthetic Metallic powders available in **100g** or more upon request

# SELF SMOOTHING SCREED SYSTEM

FAST & HIGH PERFORMING AND COMPATIBLE WITH EPOXY & RESINS FLOORS

## CEMFLOW COMMERCIAL

Kits Available	<b>25 kg</b>
Price	<b>£14.20</b>

Rapid drying, cement based, self smoothing screed designed for thin section reprofiling and levelling of cement substrates.

## COVERAGE

A 25 kg bag using 5 litres of clean water will yield approximately 14.4 litres

A 25kg pack of Cemflow COMMERCIAL will cover approximately 4.8 m<sup>2</sup> at 3 mm thickness

## ADVANTAGES:

### Fast Track Technology

Foot traffic after 3 hours, coverings after 24 hours

### • Extremely durable

Compressive strength >35 N/ mm<sup>2</sup>

### • High abrasion resistance

AR 1.0 / BS EN 13892- 4

### • Suitable for thin section reprofiling

Applied between 3 - 10 mm

### • Rapid Installation

1000 m<sup>2</sup> a day when pump applied

# SELF SMOOTHING SCREED SYSTEM

FAST & HIGH PERFORMING AND COMPATIBLE WITH EPOXY & RESINS FLOORS

## NEOPRENE PRIMER

Kits Available	5 kg
Price	£39.75

Neoprene Primer is designed to be used as a general purpose primer for dusty or absorbent surfaces to promote adhesion and to prevent unacceptably rapid drying of adhesive and smoothing underlayments.

## STRONGCOAT PRIMER

Kits Available	5 kg	10 kg
Price	£73.35	£139.36

Strongcoat Primer is a two-pack solvent free, epoxy-based primer for use with the Strongcoat and Griptop range of surface toppings.

## STRONGCOAT DPM

Kits Available	5 kg
Price	£106.77

Strongcoat DPM is a two-pack, solvent free epoxybased damp-proof membrane for use with the DCP range of surface coatings and toppings.

## FIBREGLASS MESH

Length	1x50m roll
Price	£35.00

Fibreglass Mesh is an alkaline resistant glass fibre reinforcement mesh for use with Cemflow flooring-products. Fibreglass mesh increases the stability of screeds when applied over weak or uneven substrates, or where additional reinforcement is deemed necessary.

# SELF SMOOTHING SCREEDS

FAST, HIGH PERFORMING AND COMPATIBLE WITH EPOXY & RESINS FLOORS

## TOPPING

Kits Available	25 kg
Price	£21.99

Cemflow Topping is designed as an industrial grade floor topping for upgrading and renovating new and existing internal floors. Topping is supplied as a pre-blended dry powder designed for application between **5mm to 15mm (in one application)** to provide a finished industrial floor

## TOPPING PIGMENTED

Size	Pebble / Flint / Anthracite Charcoal / Brick	Chalk / Almond / Sky / Apple / Hessian
Price	25kg £35.48	20kg £43.47

Coloured industrial grade flooring. Topping Pigmented is designed as an industrial grade floor topping for upgrading and renovating new and existing internal floors between **5mm to 15mm (in one application)** to provide a finished hardwearing floor surface.

## RENOVATION

Kits Available	25 kg
Price	£14.98

Gibre reinforced base screed, Renovation is designed as a pump or hand applied levelling base screed for use under most finished floor coverings or resin based materials, where thicker applications are required when upgrading and renovating new and existing internal floors. **5 and 50 mm in one application**

## BASE

Kits Available	25 kg
Price	£16.56

Pump applied base screed, Base is designed as a pump applied levelling base screed for use under Cemflow Topping or resin based materials, where thicker applications are required when upgrading and renovating new and existing internal floors. **5 and 50 mm in one application**

# SELF SMOOTHING SCREEDS

FAST & HIGH PERFORMING AND COMPATIBLE WITH EPOXY & RESINS FLOORS

## EXTERIOR TOPPING

Kits Available	25 kg
Price	£34.32

Polymer modified exterior screed, Exterior Topping is a polymer modified cementitious topping designed to eliminate surface irregularities and smooth internal and external concrete surfaces exposed to industrial traffic. **Application between 5mm and 15mm**

## PRIMER (WATER BASED)

Size	5 kg	25 kg
Price	£27.60	£126.16

water Based Polymeric Primer, Primer is a single component polymeric primer designed to promote the adhesion of cement based leveling compounds. used as a pore sealer on absorbent surfaces to prevent air release from the sub-floor, which can cause pin - holing on the surface of the applied floor topping

## SETSEAL 6

Kits Available	25 Lt	200 Lt
Price	£107.87	£599.27

Setseal 6 is a clear, acrylic resin based, single pack solution designed to impregnate concrete surfaces combining the benefits of a curing aid, sealer, dustproofer and hardener. 5 - 12m<sup>2</sup> per litre per coat depending on the absorbency of the base.

## SETHARD L

Kits Available	25 Lt
Price	£261.50

**LITHIUM-SILICATE LIQUID SURFACE HARDENER AND DUST PROOFER FOR CONCRETE.** Sethard L is a clear surface hardener and dust proofer designed for application to concrete and other cementitious floors. Sethard L is based on an aqueous solution of lithium silicate to enhance surface penetration. Sethard L will react chemically with concrete to produce clear, dense, and abrasion resistant surfaces.

# SELF SMOOTHING SCREEDS

FAST & HIGH PERFORMING AND COMPATIBLE WITH EPOXY & RESINS FLOORS

## MONOSEAL

Kits Available	25 Lt
Price	£220.78

**HIGH SOLIDS ACRYLIC FLOOR AND WALL SEALER AND CURING COMPOUND** Durable finish that seals concrete and natural stone surfaces preventing penetration of oils and liquids. Dust proof. Abrasion enhancement. Improves concrete and mortar curing by protecting the cement hydration. Excellent adhesion to all types of plasters and coatings, such as cement, acrylic, bitumen, emulsion and epoxy resin based products.

## SEALER PU 2 PART MATT/SATIN/GLOSS

Kits Available	5 kg
Price	£120.65

**WATER BASED, POLYURETHANE CONCRETE AND SCREED SEALER** Cemflow Sealer is a clear, water-dispersed polyurethane sealer designed to protect and seal Cemflow screeds and concrete surfaces, providing a hygienic and durable floor. Sealer helps to protect the floor surface and ease maintenance by reducing the adhesion of dirt and other debris, whilst eliminating dusting. UV stable and resistant to many of the chemicals commonly found in industrial applications

## SCREED BINDER

Kits Available	20 kg
Price	£6.60

**POLYMER MODIFIED SELF-SMOOTHING EXTERIOR SCREED** Modified, fibre reinforced cement binder for creating early drying, high strength floor screeds when mixed with sand and water. Screed is designed to produce early drying category A or B screeds and has a typical drying time of 7 days per 25 mm.

## SCREED BINDER RAPID

Kits Available	20 kg
Price	£9.64

**RAPID DRYING FIBRE REINFORCED SCREED BINDER** Modified, fibre reinforced cement binder for creating rapid drying, high strength floor screeds when mixed with sand and water. Screed BINDER RAPID is designed to produce early drying category A or B screeds and has a typical drying time of 5 days per 50 mm.

## MONOSHAKE

Kits Available	<b>25 kg</b>
Price	<b>£13.17</b>

**PRE-BLENDED QUARTZ DRY SHAKE FLOOR TOPPING AND FIBRE SUPPRESSANT** Pre-blended, quartz aggregate dry shake topping which dramatically increases the strength and abrasion resist- ince of concrete. Monoshake is a quartz based, chemically inert dry shake floor topping designed to be laid monolithically onto fresh concrete to supress fibres and maximise wear resistance.

## TIBMIX

Kits Available	<b>25 kg</b>
Price	<b>£17.35</b>

**PRE-BLENDED METALLIC DRY SHAKE FLOOR TOPPING** A pre-blended, metallic aggregate dry shake floor topping which dramatically increases the strength and abrasion resistance of concrete whilst proving an anti-static floor. Tibmix is a non-oxidising, chemically inert, metallic dry shake floor topping designed to be laid monolithically onto fresh concrete to supress fibres and maximise wear resistance.

# PORTAMIX™

The World's  
most innovative  
Mix & Pour system.

# MIXERS

We've tried and tested many mixers and these perform at the highest level.

These powerful, practical and reliable mixers will not let you down

- \_ Epoxy & Resin Mixing
- \_ Screed Mixing
- \_ Paint Mxing
- \_ Other Mixing Use
- \_ Easy to transport
- \_ Easy to clean
- \_ Powerful mixers
- \_ Super smooth blends
- \_ All in 1 Solution

# PORTAMIX™

## PORTAMIX MEGA HIPPO MIXER 1800W

Tired of mixing just one or two bags at a time? Well, check out the Portamix Mega Hippo! Save ample time and physical effort by mixing up to **6 bags at a time** in this easy to use mixing station.

**Bowl capacity: 6 x 20kg mix plus water (85 litres/160kg)**

## PORTAMIX MEGA HIPPO MIXER 1800W

### Mix up to 3 x 20kg bags

Full dust control lid to help protect you, your lungs and reduce mess  
Vacuum port for dust extraction  
Resilient canister liner (same as Mega Hippo) lowers maintenance costs and is ideal for expoxies and other difficult to clean materials  
Motor and mount is easily removed to place onto second Pelican - improve out without extra cost.

# THE REVOLUTION IS HERE!

## JOFA RESINS and ATRIA

have partnered to bring the UK Paints and Coating industry the most advanced, high performing products yet.

You've heard the saying "too good to be true".  
Well this is **TOO GOOD AND TRUE**

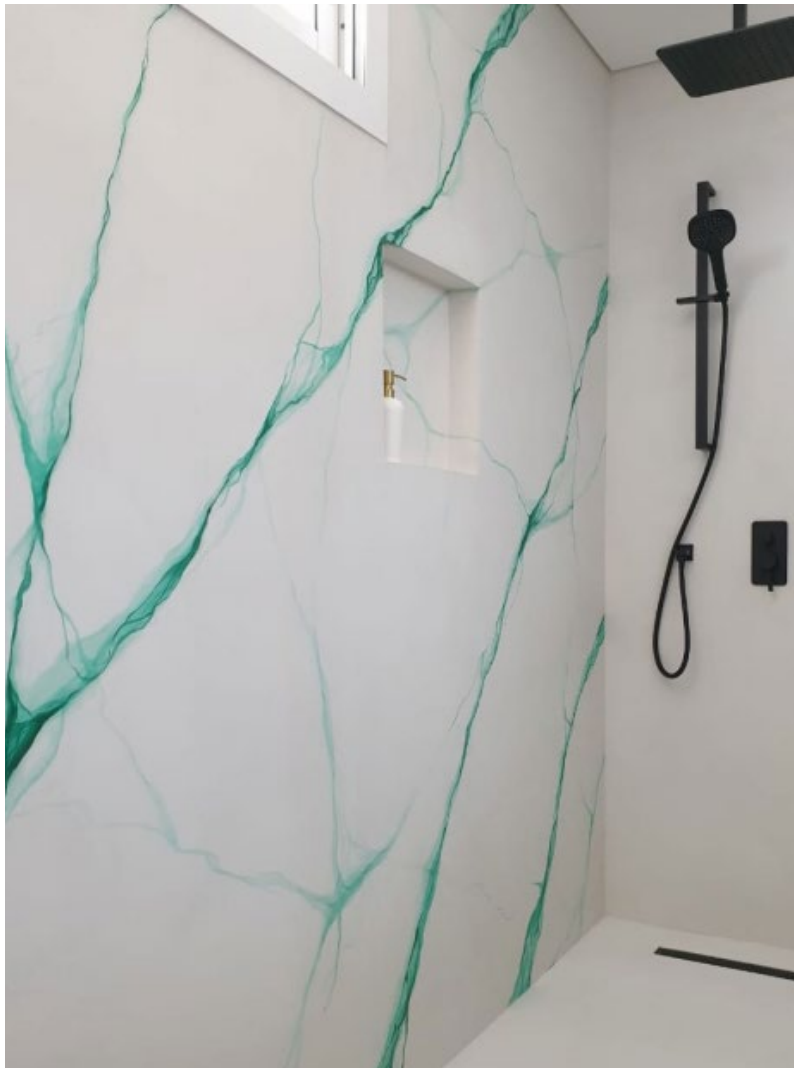

Established in **1968**,  
Atria has a track record in revolutionizing the industry with dynamic products that excel at the highest standards and finest aesthetic demands.

From **Thermo Decorative Paints** to **Cementitious Resin Coating** Solutions, Atria brings an arsenal of products to make all others seem outdated and underperforming.

Now they are here and  
**Jofa Resins is proud to be the official UK distributor**  
Contact us for more on these game changing products.

AN UPGRADE ON  
MICROCEMENT**

**JOFA RESINS**  
SISTEMI PER LA REALIZZAZIONE DI SUPERFICI

# TITANIUM ROCK RESIN

The Italian Revolution of design has landed in the UK! JOFA RESINS are proud to be **the UKs exclusive supplier of ATRIAFLOOR products**, bringing innovative proven and tested products into the Epoxy and Resin market. Bringing a cementitious rock effect with **NONE** of the common microcement frailties.

## TITANIUM ROCK RESIN SYSTEM Recommended Consumptions per m2

### 1 - SUBSTRATE / SUBFLOOR

Min. 25N/mm2 - Dust Free - Must be Level - Crack Free

### 2 - ATRIAFLOOR PRIMER

120 gsm2

### 3 - RASANTE ONE (BASE COAT)

1kg per coat (2coats recommended)

### 4 - TITANIUM ROCK RESIN

500g per coat (2 coats recommended)

### 5 - ATRIAFLOOR PROTECTIVE

180g in 2 coats (recommended)

##### 4 - RESINA ONE

500g per coat (2 coats recommended)

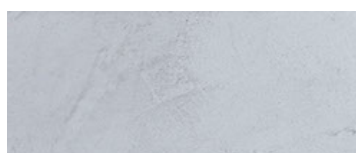

##### 5 - ATRIAFLOOR PROTECTIVE

180g in 2 coats (recommended)

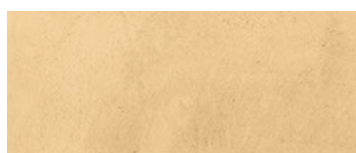

## AVAILABLE COLOURS

To get a more contrasted final effect, it is advisable to spread the second coat more. In addition, to further accentuate the True Cement effect, for the first coat of Resina One you can use a darker shade than that of the final coat you have chosen, as in the examples shown below.

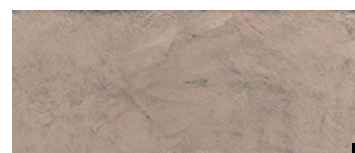

1st coat **TRUE012**  
2nd coat **TRUE032**

1st coat **TRUE021**  
2nd coat **TRUE027**

1st coat **TRUE021**  
2nd coat **TRUE020**

1st coat **TRUE003**  
2nd coat **TRUE020**

# Diva

## Thermo Decorative Paint

The concept of thermodecorative paint was in fact created by the Atria company, today the only world producer of this type of technology, born from the experience of Atriathermika, Italian leader in the field of thermodecorative paints and thermal insulating coatings.

The result of decades of studies and laboratory research, Diva products are certified by the most renowned bodies in the sector and covered by the Atria Wellness-Care Technology guarantee: no more mould and condensation for dry and clean walls, thermal insulation effect that allows you to be more cooler in summer and warmer in winter (-2 in summer +4 in winter) for a truly perceived well-being. More liveable environments, evenly distributed heat, no more dispersions for higher energy efficiency that allows certified savings of 20%.

Sand, concrete, metal... brushing, glazing, materiality... these and many more are the finishes of Diva products. Beauty and technology together, to take care of buildings, without neglecting any aspect, functional or aesthetic. To each his own style, to create in full efficiency and freedom.

## TECHNICAL INFORMATION

0.3 mm flexible stainless steel blade for easy application of finish coat.

Stiff backing 0.6 plate to give stability, balance and right flexibility .  
Die-cast aluminium shank to give strength and resistance

Rounded edges to ensure smooth finish. Bi-component rubber cilindrical handle for a good grip.

Stainless steel rivets between backing blade and shank to give superior strength and flatness . Special adhesive foam to connect the blade and the stiff plate.

This foam can resist solvents and extreme temperatures

## APPLICATIONS

- \_ Venetian plaster
- \_ Finish plastering
- \_ Drywall skim coat
- \_ Fine finishing concrete
- \_ Microcement
- \_ Large stencil works

# TOOLBOXES

Size	Small	Max
Price	£70.30	£90.80

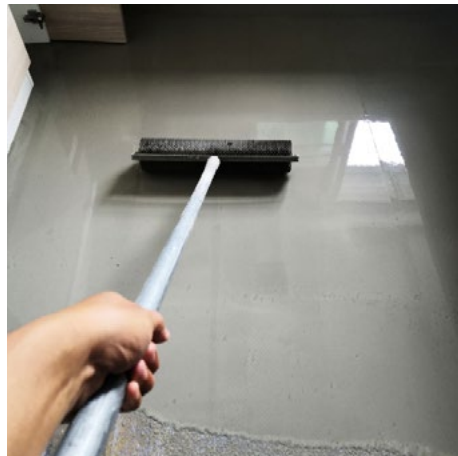

# TOOLS & EQUIPMENTS

Make sure to have the correct equipment ready to deploy in your next project, avoid delays, misfortunes and control your work from start to finish.

Resins have different drying/curing times so managing the product with the correct tools is ever so important to achieve a professional standard.

# TOOLS & EQUIPMENT

## SHOE IN PRO SPIKE EPOXY SHOES

Sizes Available	M - L -XL
Price	£67.50

This spike shoe is, in our opinion, the safest spike on the market . The spike overshoe hasSuperior stability, and is also is very simple to get in and out of . There are no straps to drag or break, and no nuts that are going to come loose and fall off . Honestly we have not had one single person put them on and not say it was hands down the best spike they have ever tried.

It's never been easier to Install epoxy coatings or self-leveling and decorative overlays. With a patented design, Shoe-in Pro shoes are a fantastically simple and affordable solution with multiple applications.

## REPLACEMENT SPIKES

Sizes Available	M - L -XL
Price	£22.61

Each pack contains 32 replacement spikes in sharp point. Our Shoe-In Spikes are extremely durable but they will wear with constant use. For the best performance on your floor coatings your spikes need to be sharp. Sharp Spikes - epoxy, urethanes and polyaspartic coatings.

# TOOLS & EQUIPMENT

## SQUEEGEES - FLAT - NOTCHED

Self leveling blades to practically regulate resin spread and efficiently coat your surface preventing bubbles and uneven spread. Replaceable blades, Easy to clean and reusable.

# CLEANING & MAINTENANCE

From floor surface cleaning & maintenance products to antibacterial/antiviral products to maintain surfaces spotless and at the most higienic standards.

We supply the THOMIL PROFESIONAL branded products which are compatible with our coating systems for a long lasting surface.

### BACTEROMIL GEL

Unit Packaging	500 ml	4 lt
Price	£7.08	£34.50

#### BACTEROMIL NON-RINSE ANTISEPTIC GEL

External application gel which disinfects hands without having to rinse them. Sanitizer for healthy skin. Complies with the UNE-EN 1500 (Antiseptic by friction), UNE-EN 13624 (Levuricide) and UNE-EN 14476 (Virucide) Standards. Efficacy tested against Coronavirus.

### MULTI SPLENDID

Unit Packaging	750 ml
Price	£2.87

#### FURNITURE AND MODERN SURFACE CLEANER:

Professional formula for the effortless cleaning and polishing of modern surfaces, leaving no marks. Suitable for lacquered wood, plastic laminate, leather, synthetic leather, marble or plastics.

### CRYSTAL

Unit Packaging	750 ml
Price	£2.84

#### GLASS AND MIRROR CLEANER:

Glass cleaner for glass, crystal, mirrors, polished surfaces and ceramics. Cleans, degreases deeply and polishes without leaving streaks or cloth marks, delaying the appearance of dirt. Pleasantly scented with a coconut fragrance with an air freshener effect.

### EXPRESS

Unit Packaging	750 ml
Price	£6.66

#### INK AND PIGMENT REMOVER

Removes inks, stains and pigments of fountain pens, markers or ball point pens from hard surfaces, plastics and textiles.

### POLISH METALS

Unit Packaging	750 ml
Price	£4.68

#### STAINLESS STEEL AND METAL POLISH

Stainless steel, aluminium, chrome and golden metals Polish & Cleaner. Resists scratches, fingerprints and stains. Suitable for elevators, doors, trims, machinery, extractor hoods, etc.

### AMONIA FRESH

Unit Packaging	4 lt
Price	£7.21

#### MULTI- SURFACE CLEANER WITH AMMONIA

Concentrated detergent with ammonia extract and fresh pine perfume. Good for sanitizing and degreasing all washable surfaces, floors without protective layers and glasses using glass wipers.

### EMULPLAC 180°C

Unit Packaging	880 g
Price	£4.16

#### HOT GRIDDLE DEGREASER

Cleaner for griddles, grills and cooking elements at high temperatures. Descales, dissolves and removes charred, embedded and old greases at working temperature (+150°C), with no danger of splashes or harmful vapours, almost without rubbing in less than 1 minute.

### DEGRASS MULTI

Unit Packaging	4 lt
Price	£7.74

#### FREQUENT-USE GENERAL PURPOSE DEGREASER

Alkaline multipurpose degreaser for cleaning of all type of dirtiness, and especially grease, on surfaces that stand alkaline washing, and also floors and kitchens.

### DEGRASS D-50

Unit Packaging	4 lt
Price	£11.66

#### COLD SURFACE AND GRIDDLE DEGREASER

Concentrated alkaline degreaser for cleaning of very embedded greases on extractor hoods, filters, grills, ovens, griddles, glazed tiles and kitchen tools.

### C-2000 SCRUB

Unit Packaging	4 lt
Price	£9.39

#### ALKALINE DEGREASING CLEANER FOR SCRUBBING MACHINES:

Degreasing cleaner for non-treated floors. Special for scrubbing machine or single disc rotary floor machine. With foam control.

### C-3000 SCRUB

Unit Packaging	4 lt
